FOUNDER: PROF.DR. S. B. MUJUMDAR M. Sc. Ph.D. (Awarded Padma Bhushan by President of India)

More guest lectures can be conducted to understand the practicality of the industry. More hands on experience in tacking the real life industry problems	Guest lectures/Workshops/Webinars are arranged for this purpose already in place.
Faculty should be partially academicians and partially from the industry so as to know the practical aspects of theory taught from someone who has experienced it by working in the industry simultaneously.	For capping lecture, industry exposures industry experts can be called for workshops and guest lecture. This practice is very much followed today also.
Certificates should be given for Pandharpuriwari, blood donation and other volunteering activities. NABH certificate also still not given. Admin department delays in solving problems related to fees, other complaints. Any grievance related to any faculty should be addressed without the presence of the faculty about whom the complaint is done.	Can not be given as this is part of curriculum
Kindly try to give more of industrial exposures to students	From This academic year 2020-21 onwards SUHRC and SCOPE based experiential learning is incorporated
More of practical assignment which are given in organizations instead of only theoretical knowledge.	Without theory practical understanding will be difficult and as per SIU norm to incorporate theory part.
include case studies rather that only ppt	Already incorporated
Some faculties use only theory oriented approach in teaching, that we find it difficult to relate it to the practical scenario.	The point was discussed with faculty during feedback discussion meeting and point is well conveyed.

Summary of Feedback Analysis and Action Taken:		
Sr. No	Particulars / Action Point	Action Taken
1.	More practical experiences rather than assignments	hands on training program and simulation mode of training was conducted.
2.	Lean six sigma as part of programme	Lean six sigma was explained in quality and accreditation topic and information to enroll for outside certification course was provided.
3	More exposure in the form of internships	hospital, insurance, marketing, pharma ,IT industry internship students were deputed.
4	Risk management in the hospital / Clinical administration	Risk litigation and FHMEA, HFMEA tool was incorporated in quality and accreditation subject.
5	Practical aspects of Research methodology, statistics and Marketing	Faculty training & research was conducted. Research methodology and tools were explained to the students by statistician and research experts. Small research programs were encouraged from SIRI.
6	Computer science	IT as an elective course incorporated
7	Microsoft Excel Advance course and also more guest lectures to understand the current scenario of the industry. Could even enhance more on Public and Global Health issues.	Advance excel course incorporated. Multidiversity guest faculty invited. Ayushman Bharat and NITI aayog experts were planned.
8	Microsoft Excel, Business Analytics with basic exposure to Tableau	Proposed to add Advanced excel as a subject course. Same for Business modelling, business analyticals and business intelligence.
9	Market research	Students are encouraged for market research internship program / SIP
10	NABH and NABL as a course and not as a voluntary workshop	NABH is a part of quality course. It was made compulsory. NABL was conducted on 11th November as a compulsory course for 1 whole day.
11	Industrial visits should be included and pharma faculty should be good.	Pharma experts and entrepreneurship experts with Phd was recruited as a full time faculty. Pharma marketing was emphasised.
